# Blended First Aid Software Factsheet

Overview:

Our innovative software enables training providers to offer both **Blended RQF Level 3 Qualifications** and **Blended Non-regulated Courses** to their clients.

Our software is fully interactive and user friendly. It **meets the standards set by the HSE** for eLearning as learners are required to read and complete each page before progressing, the software has a built-in spot-checking facility to prevent identity fraud and tracks the time taken to complete each section. **Our software meets RQF assessment criteria.**
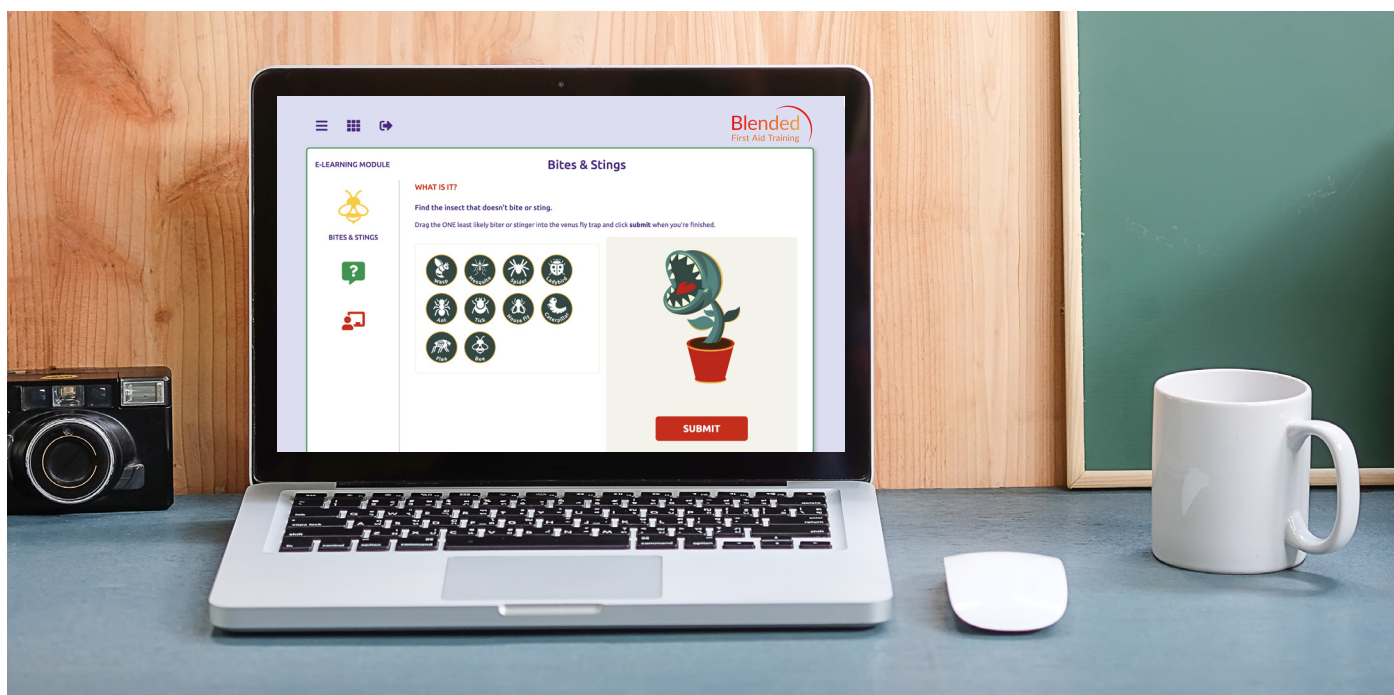

Our Software:

- Blended Full Paediatric First Aid (1 day practical with BFA software) **non-Regulated & RQF L3 Qualification**

- Blended First Aid at Work (2 day practical with BFA software) **non-regulated & RQF L3 Qualification**

- Online only Paediatric First Aid Course

- Online only Anaphylaxis Course

- Online only Meningitis and Sepsis Course

Benefits:

- Choose to deliver **Full Paediatric First Aid** or **First Aid at Work** as an RQF or non-regulated qualification
- Approved by Awarding Organisations
- The most **comprehensive, userfriendly** and compliant **eLearning software** on the market
- You provide the full course to your client with **your branding**
- Your branded eLearning and smart learner login
- **Weekly progress reports** so you can see if learners have started or completed
- Training provider portal with many functions such as Book a Course/View Courses/Next Course due notifications

Cost:

Cost	Software	Non-regulated Certificate	RQF Certificate
£12 per learner	✓	✗	✗
